User Guide

Feature-by-feature walkthrough with screenshots

Generated May 17, 2026

How this guide is organized

The first 12 features (marked & TOP) cover what most staff will touch every day. The remaining 13 round out the catalog for admins, specialists, and family-facing flows. Each entry shows what the feature is, who can use it, how to open it, and a screenshot.

Contents

Top 12 — daily-use features

01. Hall Pass — Live Queue	Teacher
02. Hall Pass — Create Pass	Teacher

21. Parent Portal — Invites	Admin
23. Insights — Behavior	Admin
24. Insights — Early Warning	Admin
25. Data Importer	Admin

Hall Pass — Live Queue

Teacher

& TOP 12

Screenshot pending

attached_assets/userguide_screens/01-hallpass-queue.png

What it is

Real-time view of who is out of the room, where they went, and how long they've been gone. Auto-resets at each bell period.

How to use it

- Open Sidebar !' Hall Passes to see your active queue.
- Timers turn yellow at 5 min, red at 10 min — long passes flag for follow-up.
- Tap a row to close the pass when the student returns.

Hall Pass — Create Pass

Teacher

& TOP 12

Screenshot pending

attached_assets/userguide_screens/02-hallpass-create.png

What it is

Issue a hall pass from a per-teacher allowlist of destinations. Restrooms group to the left so the closest one is a single click.

How to use it

- Click '+ New pass' and pick the student.
- Pick a destination — your allowed list comes from your room's location.
- Pass appears in the queue immediately.

Hall Pass — Tardy Pass

Teacher

& TOP 12

Screenshot pending

attached_assets/userguide_screens/03-hallpass-tardy.png

What it is

Late-to-class tardy passes that count toward tardy reports without polluting hall-pass minutes.

How to use it

- From Hall Passes, switch to the Tardy tab.
- Pick the student and (optionally) the reason.
- Tardy logs feed Insights !' Behavior so you can spot patterns.

PBIS Hub

Teacher

& TOP 12

Screenshot pending

attached_assets/userguide_screens/04-pbis-hub.png

What it is

Class-level positive-behavior point center. Award points, see house affiliation, redeem in the Classroom Store.

How to use it

- Open Sidebar !' PBIS Hub to see your roster with house badges.
- Tap a student card !' pick a PBIS reason !' points post immediately.
- Roster cards show running point totals and recent recognitions.

PBIS Spotlight

Teacher

Screenshot pending

attached_assets/userguide_screens/05-pbis-spotlight.png

What it is

Random-student recognition draw with a quartile-tiered governor that keeps the house race fair when one house runs away with the lead.

How to use it

- From PBIS Hub, click 'Spotlight'.
- A student is selected at random; the reveal shows the point value (1–10) that was awarded.
- Award persists immediately — no second confirmation step.

House Standings

Any

& TOP 12

Screenshot pending

attached_assets/userguide_screens/06-pbis-houses.png

What it is

Live school-wide house leaderboard. Drives the spotlight governor and the digital signage standings tile.

How to use it

- Visible on PBIS Hub and on any signage TV that includes the standings tile.
- Totals update in real time as points are awarded.

School Store

Admin

& TOP 12

Screenshot pending

attached_assets/userguide_screens/07-school-store.png

What it is

School-wide reward catalog. Admins/PBIS coordinators edit; teachers see read-only and redeem from a student's points.

How to use it

- Open Sidebar !' School Store.
- Click '+ Add item' to upload an image, name, and point cost.
- Items go live to the whole school immediately.

Classroom Store

Teacher

Screenshot pending

attached_assets/userguide_screens/08-classroom-store.png

What it is

Each teacher's personal reward catalog. Live alongside the School Store; teachers fully control their own.

How to use it

- Open Sidebar !' Classroom Store.
- Add items, set point costs, mark in-stock counts.
- Redeem from a student's PBIS Hub card.

Pickup — Curb Keypad

Front office

& TOP 12

Screenshot pending

attached_assets/userguide_screens/09-pickup-curb.png

What it is

Phone-first numeric keypad at the curb. Parent enters their tag number; their authorized students roll up automatically.

How to use it

- Open a kiosk to /pickup/curb.
- Front-office staff types the parent's 4-digit tag number.
- Authorized students appear; tap each to release to the car.
- Restricted tags require a justification override.

Pickup — Walker Gate

Front office

Screenshot pending

attached_assets/userguide_screens/10-pickup-walkers.png

What it is

Walker dismissal gate. Enforces the bell window so walkers can't leave before dismissal.

How to use it

- Open /pickup/walkers.
- Before the bell window, the gate shows a 'not yet open' banner.
- Inside the window, staff can release walkers individually.

Pickup — Tag Management

Admin

Screenshot pending

attached_assets/userguide_screens/11-pickup-tags.png

What it is

Admin tool to issue and reissue parent pickup tags. Bulk start-of-year assign, lost-tag reissue, batch PDF printing with QR codes.

How to use it

- Settings !' Pickup Tags.
- Use 'Bulk start-of-year' to assign every active student's primary guardian.
- Click 'Print PDF' to generate single or batch tag sheets.
- Warning fires at 80% of the number range.

Pickup — Still on Campus

Admin

Screenshot pending

attached_assets/userguide_screens/12-pickup-still-on-campus.png

What it is

Post-cutoff reconciliation tile in the Admin Hub. Groups students still on campus by their dismissal mode so the office can clear the building.

How to use it

- After the dismissal cutoff time, the tile appears on the Admin Hub.
- Students are grouped by dismissal mode (bus, car, walker, ASP).
- Resolve each row by marking the student as picked up or moved to ASP.

Safety Plans — List

Counselor

& TOP 12

Screenshot pending

attached_assets/userguide_screens/13-safety-plans-list.png

What it is

Per-student behavioral and physical safety checklists. Guidance counselors and Core Team edit; all staff view.

How to use it

- Sidebar !' Safety Plans to see all active plans.
- Plans are indexed on the student profile and in teacher rosters.
- Audit log captures every edit.

Safety Plans — Editor

Counselor

Screenshot pending

attached_assets/userguide_screens/14-safety-plans-edit.png

What it is

Checklist editor backed by a shared library of approved items. Add/remove rows, attach notes, set effective dates.

How to use it

- From the plan list, click a student to open the editor.
- Pick items from the library or add custom rows.
- Save publishes to the student's profile and notifies their teachers.

MTSS Intervention Plans

MTSS Coord

& TOP 12

Screenshot pending

attached_assets/userguide_screens/15-mtss-plans.png

What it is

Tier 2/3 intervention plan tracking with goal setting, strategy categories, and weekly progress monitoring.

How to use it

- Sidebar !' MTSS Plans to see active plans.
- Open a plan to set the goal, frequency, and intervention strategy.
- Bell notifications fire when a weekly check-in is due.

MTSS — Progress Monitoring

MTSS Coord

Screenshot pending

attached_assets/userguide_screens/16-mtss-progress.png

What it is

Weekly progress chart with trend line and goal line. Drives the completion report at plan close-out.

How to use it

- From a plan, switch to Progress tab.
- Add a weekly data point; the chart auto-updates.
- Close the plan to generate a completion report PDF.

Teacher Roster

Teacher

& TOP 12

Screenshot pending

attached_assets/userguide_screens/17-teacher-roster.png

What it is

Each teacher's class roster with FAST scores, ESE/504/ELL program flags, and safety-plan indicators in one view.

How to use it

- Sidebar !' Roster.
- Click any student to drill into their profile.
- Core Team members can switch to any teacher's roster.

Displays — Playlist Editor

Admin

& TOP 12

Screenshot pending

attached_assets/userguide_screens/18-display-playlists.png

What it is

Per-school playlist builder for signage TVs. Supports images, video, audio, PDF, and live tiles (PBIS standings, active hall passes, Heartbeat).

How to use it

- Sidebar !' Displays.
- Create a playlist; add items; set duration per item.
- Schedule a playlist to a specific TV by location.

Displays — Live Signage View

Any

Screenshot pending

attached_assets/userguide_screens/19-display-signage-tile.png

What it is

Browser view a TV opens to. Rotates through scheduled items and live tiles.

How to use it

- Point the TV's browser at /signage/<playlistId>.
- Playlist starts automatically; live tiles refresh on their own cadence.

Parent Portal

Parent

& TOP 12

Screenshot pending

attached_assets/userguide_screens/20-parent-portal.png

What it is

Secure portal for parents to view their student's HeartBEAT data — PBIS, hall passes, tardies, accommodations, staff notes.

How to use it

- Parent logs in at /parent with the admin-issued invite.
- Sibling switcher lets one parent view multiple students.
- Configurable section visibility per school; PDF export available.

Parent Portal — Invites

Admin

Screenshot pending

attached_assets/userguide_screens/21-parent-invite-admin.png

What it is

Admin tool to issue parent portal invitations and reset access.

How to use it

- Settings !' Parent invites.
- Send invite to the guardian's email of record.
- Reset access here if a parent loses their login.

Insights — Engagement

Admin

& TOP 12

Screenshot pending

attached_assets/userguide_screens/22-insights-engagement.png

What it is

Engagement dashboard: attendance, tardies, hall-pass volume, on-time check-ins. Trends and top-N lists.

How to use it

- Sidebar !' Insights !' Engagement.
- Filter by grade and window; charts re-aggregate in place.
- Click any student name to jump into their profile.

Insights — Behavior

Admin

Screenshot pending

attached_assets/userguide_screens/23-insights-behavior.png

What it is

Behavior dashboard: PBIS points by reason, behavior referrals, ISS/OSS counts, top-receivers and top-givers.

How to use it

- Sidebar !' Insights !' Behavior.
- Disaggregate by demographic to surface equity gaps.

Insights — Early Warning

Admin

Screenshot pending

attached_assets/userguide_screens/24-insights-early-warning.png

What it is

Composite risk list combining attendance, behavior, and academics. Surfaces students who need outreach this week.

How to use it

- Sidebar !' Insights !' Early Warning.
- Sort by risk score; click any row to drill into the student profile.

Data Importer

Admin

Screenshot pending

attached_assets/userguide_screens/25-data-importer.png

What it is

Generic CSV importer for assessments, rosters, and behavior data. Template mapping, preview, commit, and rollback.

How to use it

- Settings !' Data Importer.
- Pick the template that matches your file shape.
- Upload !' preview the parsed rows !' commit.
- Rollback link is preserved per import run.
