

PulseEDU

SCHOOL CULTURE & OPERATIONS

One platform for hallways, recognition, support, and family communication.

PulseEDU collapses hall passes, tardies, PBIS, ISS, MTSS, pullouts, accommodations, and parent emails into a single fast system designed for the way teachers and admins actually work.

DAILY CLASSROOM OPERATIONS

Digital Hall Passes

Replace paper passes with a tap. Track who's out, where, and for how long. Tablet kiosk mode included.

Tardy Pass

Log late arrivals in seconds. Patterns surface automatically across students and periods.

Bell Schedules

Regular days, activity days, early release, and custom schedules — editable per school, applied live.

Hall Pass Management

Per-student pass limits with parent-approval workflow when limits need to be tightened.

POSITIVE BEHAVIOR RECOGNITION (PBIS)

PBIS Points

Recognize the behaviors that matter, with reasons your school controls — fast enough that teachers actually use it.

School Store

A live rewards catalog students browse and earn toward — managed by PBIS, BS, or MTSS leads.

Classroom Store

Per-teacher mini-store for in-room incentives that complement the school-wide catalog.

Milestone Parent Emails

Auto-celebrate when a student hits a points milestone. The first call home shouldn't be the bad one.

PBIS Reports & Dashboards

Trends across staff, students, reasons, and time — with built-in alerts for invisible students, quiet teachers, reason imbalance, and cold periods.

Configurable PBIS Reasons

Your school's recognition vocabulary, not someone else's. Edit reasons, weight, and visibility.

MULTI-TIER STUDENT SUPPORT (MTSS)

Log Intervention

Trusted-adult check-ins logged in seconds and tied to the student record.

Request Pullout

Teachers request a student be pulled for counseling, behavior, or academic support — no more sticky notes.

Verify Pullouts

Specialists verify, schedule, and close the loop so requests don't fall into a void.

MTSS Plans & Templates

Build, assign, and track formal student support plans using your school's own templates.

Run the Building

Passes • Tardies • ISS • Bell Schedules

Build the Culture

PBIS • School Store • Milestone Emails

Support the Student

MTSS • Pullouts • Accommodations • Family Comm

ISS & IN-SCHOOL SUSPENSION OPERATIONS

Live ISS Dashboard

See who's on the way, who's arrived, and who's still missing — in real time. No more radio chatter.

Daily Roster & Attendance

One screen for the day's roster, with arrival timestamps and cancellation handling.

ACADEMIC INSIGHTS FOR TEACHERS

Teacher Roster + FAST Scores

Per-class roster with PM1/PM2/PM3 score pills, color-coded by performance. Click to flip between proficiency level and scale score.

Hide-What-You-Don't-Need

Toggle optional columns so each teacher sees the data that matters for their students.

FAMILY COMMUNICATION

Family Communication Center

Send parent emails with smart tokens — student name, hall pass count, PBIS points, lost minutes — so personalization is automatic.

Daily Digest Emails

Optional summaries that keep stakeholders informed without flooding inboxes.

Positive-First Auto-Emails

Milestone celebrations send themselves, making good news the default contact home.

Editable Templates

Templates are yours to tune — your tone, your branding, your variables.

ACCOMMODATIONS, ESE & CONFIGURATION

Accommodations Catalog & Logs

School-wide accommodations every teacher can reference, with structured logging of what was provided and when.

Per-School Feature Toggles

Each building turns on only the modules it uses. Hall Passes, Tardy Pass, and Teacher Roster are always on; everything else is opt-in.

WHY PULSEEDU IS THE BEST SOLUTION

1

One platform instead of seven

Replaces hall passes, PBIS, ISS, parent email, pullout forms, and the FAST spreadsheet — with one login your staff already knows.

2

Culture data your principal can act on

Auto-flags invisible students, quiet teachers, reason imbalance, and cold periods. Stop having PBIS data — start using it.

3

Designed by-the-screen for teachers

A pass takes one tap. A PBIS recognition takes two. Teachers actually use it because it's faster than paper.

4

The first call home isn't the bad one

Milestone emails and templated family comms make positive contact the default — changing parent relationships at the building level.

5

MTSS without the binder

Trusted-adult checks, pullouts, behavior reviews, and formal MTSS plans live on the same student record.

6

Real-time ISS & pullout visibility

The dashboard tells you who's on the way, arrived, or still in transit — no more "where is so-and-so?"

7

Recognition tied to rewards, automatically

PBIS Points and the School Store share one ledger. No tickets to lose, no spreadsheets to reconcile.

8

Built to bend to your school

Per-school feature toggles, custom PBIS reasons, custom pullout reasons, custom bell schedules, custom email templates.

BOTTOM LINE

PulseEDU turns the daily chaos of running a school — passes, tardies, pullouts, ISS, PBIS, parent contacts, MTSS plans, and academic data — into a single, fast, teacher-friendly system that makes positive school culture the path of least resistance.
