FOR TEACHERS

Less paperwork. More teaching.

Hall passes, tardies, parent emails, PBIS, interventions, accommodations, and your class roster — one fast app, one login, and almost everything is two taps or fewer.

YOUR DAILY TOOLKIT

Hall Passes

Issue a digital pass in one tap. See who's out, where, and how long. No paper, no clipboard.

Tardy Pass

Log a late arrival in seconds. Patterns build automatically — no spreadsheet to maintain.

PBIS Points

Recognize the behaviors you want to see. Two taps and you're done — fast enough to actually use it.

School & Classroom Store

Students see exactly what they're earning toward. Optional in-room store for your own incentives.

Family Communication

Send parent emails with student data auto-filled — name, points, pass count, lost minutes. No typing the same thing 20 times.

Positive-First Auto-Emails

Milestone celebrations send themselves, so the first call home isn't the bad one.

Your Teacher Roster

Your class on one screen with FAST PM1/PM2/PM3 score pills, color-coded by level. Click a pill to flip between proficiency and scale score.

Accommodations at a Glance

School-wide accommodations list right in the app. Log what you provided, when, in seconds.

Log Intervention

Trusted-adult check-ins logged to the student record in a few taps — no separate form, no email chain.

Request a Pullout

Need a counselor or specialist to pull a student? Tap, pick a reason, send. Specialists see it instantly.

WHY TEACHERS LOVE PULSEEDU

Faster than paper. Most actions are 1–2 taps. Built for the hallway, not the desk.

Personalized parent emails in seconds. Smart tokens fill in student data automatically.

Your roster, your view. See FAST scores at a glance. Hide the columns you don't need.

The good news goes out automatically. Milestone emails change parent relationships before you say a word.

One login for everything. Stop juggling tabs, sticky notes, and group texts.

Recognition that actually counts. PBIS points connect straight to the school store — no tickets to lose.

Support is one tap away. Pullouts and interventions go straight to the right person — no chasing.

Works on the device you already carry. Phone, tablet, or laptop — same app, same speed.
