

School Tours

Turn every campus visit into an enrollment.

A connected enrollment-tour platform — from a family's first inquiry to the day they enroll — standardized across every school in your district.

One workflow

Every school runs the same enrollment-tour playbook.

Never drop a lead

Automatic follow-up clocks and response SLAs.

See what works

Conversion analytics by school and by guide.

Where enrollment is won — or lost

Families choose schools they feel connected to, and the campus tour is where that connection is made. Yet most districts run tours on sticky notes, spreadsheets, and memory — so leads slip, the family experience varies campus to campus, and leadership has no line of sight. PulseEDU turns the tour into a measurable, repeatable enrollment engine.

Leads fall through the cracks

Inquiries live in inboxes and on paper. Without an owner or a clock, follow-up is inconsistent and families go quiet.

WITH PULSEEDU Every inquiry becomes a tracked lead with an assigned owner and an SLA countdown — nothing gets forgotten.

No visibility for the district

Leaders can't see how many families toured, which campuses convert, or which guides are most effective.

WITH PULSEEDU Live conversion analytics by school and by guide — replicate what works across the district.

Inconsistent family experience

Tour quality depends on who happens to give it that day, and non-English families are often underserved.

WITH PULSEEDU A branded, bilingual (EN/ES) journey and a standardized tour playbook at every campus.

HOW IT WORKS

One journey, six simple stages

1

Discover

A family finds the school's bilingual brag page and requests a tour online.

2

Capture

A new lead lands in the pipeline and the right staff are alerted instantly.

3

Assign

An owner is assigned and the tour is scheduled — the SLA clock starts.

4

Walk

A guide runs a live, timed tour from any phone — and it works offline.

5

Follow up

Captured notes and a post-tour survey power a personalized follow-up.

6

Convert

The outcome is logged, and the district sees the conversion in real time.

BUILT FOR EVERY ROLE

Each user sees their own view of the same tour

Families

Bilingual brag page, a simple tour request, and a quick post-tour survey — no login.

Front office

A pipeline with owners, SLA clocks, scheduling, contact logging, and one-tap PDFs.

Tour guides

A phone-based live walk: confirm the guide, tap each stop, jot notes — offline-ready.

Leadership

District-wide conversion and per-guide analytics to coach and replicate success.

A complete enrollment-tour toolkit

Branded bilingual brag pages

A polished EN/ES landing page per school with photos, flyers, and programs.

Lead pipeline with SLAs

Owners, overdue clocks, and follow-up windows keep every family moving.

Live Tour Capture

Timed, offline-first guide walks with one-tap stops and follow-up notes.

Printable tour kit

Brag sheet, roadmap with start-the-walk QR, note-catcher, and leave-behind.

Post-tour family surveys

Star ratings and open feedback flow straight into the follow-up.

District branding inherited

Your logo and identity carry across every school automatically.

MEASURE WHAT MATTERS

Tours completed, average tour length, conversion rate by school and by guide, lead source, and planned-vs-actual stop timing — so you can coach guides and replicate what's working district-wide.

Why PulseEDU

School Tours is part of the PulseEDU school-operations platform — multi-tenant by design and already running attendance, behavior, MTSS, and family communication across your schools. Tours plug into the same roster, roles, and branding, so there's no new silo to maintain.

Standardize enrollment tours across your district.
